

Surv yH isto y

The largest three-service municipal utility system in the nation, MLGW delivers electricity, natural gas and water throughout Memphis and Shelby County. Each year we strive to not only deliver the best possible price, but also the highest quality service.

We surveyed 39 cities, including many that are geographically close to Memphis, as well as utilities that are similar in size to MLGW. All costs covered in this survey are based on published rates effective January 2025.

MLGW started collecting data on rates in 1991. Memphis continues to outperform many cities in terms of what customers pay for electricity, natural gas and water services. MLGW's financial management remains a driving force in keeping utility bills as low as possible.

We are proud to present the 2025 Utility Bill Comparisons for Selected Cities. MLGW, a division of the City of Memphis, compiled the data. The survey compares residential, commercial and industrial electric, gas and water bills at various usage levels with rates in effect January 2025. Only FIRM RATES are used.

Memphis: 10 Years Among Lowest Winter Utility Bills

Historically, Memphis customers have spent less for their winter utility bills than their counterparts in many metro areas, capturing the top ranking 21 times since 1991. The 2025 ranking includes what a homeowner would pay for 1,000 kilowatthours (kWh) of electricity, 200 hundred cubic feet (CCF) of gas and 10 CCF of water. Wastewater is no longer included. Dollar amounts have been rounded.

Guidelines used in providing the utility figures:

- Calculations are based on monthly consumption.
- Seasonal rates are used when applicable.
- Special early payment discounts are excluded.
- Time differentiated rates were excluded.
- Taxes not booked as revenue by the utility are excluded.
- Special rates are not used for electric space heating and water heating.

1 MEMPHIS LIGHT, GAS AND WATER DIVISION

ELECTRICITY

TVA

MLGW buys electricity from the Tennessee Valley Authority. TVA sells its power on a non-profit basis to 153 local power companies. As TVA's largest customer, MLGW purchases 10 percent of TVA's power.

MLGW owns and maintains over 600 miles of transmission lines and four connection points or substations with TVA. The utility company is capable of meeting peak system demands of up to 3.6 million kilowatts for its nearly 440,000 electric customers.

In 2024, the American Public Power Association's Reliable Public Power Provider program gave MLGW its highest ranking – Diamond level status – which lasts for three years.

One kilowatt-hour equals ten 100-watt light bulbs staying on for an hour.

RESIDENTIAL GAS BILLS Rates in effect January 2025

MLGW currently buys natural gas and moves it via three interstate pipeline companies, Texas Gas Transmission Corp., ANR Pipeline Co. and Trunkline Gas Co. MLGW supplies nearly 313,000 gas customers with 37 billion cubic feet of gas a year purchased from more than 30 suppliers.

In addition to natural gas, MLGW also operates a wholesale Liquefied Natural Gas facility and two retail Compressed Natural Gas stations for our customers.

One hundred cubic feet is a common unit of measurement of gas volume.

4,574 = miles of gas mains 201 = miles of gas transmission

A contractor checks a residential gas meter for leaks and damages.

A gas worker wears a self-contained breathing apparatus as he and a co-worker set up to make repairs on a gas line. A fire extinguisher sits nearby if needed.

RESIDENTIAL WATER BILLS

Rates in effect January 2025

MLGW operates one of the largest artesian water systems in the world. On a peak day, MLGW can deliver up to 250 million gallons of water to nearly 256,000 customers. In the layer of water-bearing sands beneath the city, there is an abundant supply of naturally pure, high-quality water that will meet the daily needs of a city several times the size of Memphis.

Water Analysis (Average 2024)

ALKALINITY HARDNESS

3,980 = miles of water mains

A lab specialist performs calibration of a pH meter at the MLGW Water Quality Assurance Laboratory.

Once a water line project is completed, a Paving & Concrete Restoration crew returns to repair the street before morning rush hour.

COME GROW WITH US

MLGW has the necessary facilities to meet the utility needs of a growing Memphis economy. The MLGW Economic Development Department and the Greater Memphis Chamber of Commerce promote commercial and industrial development in our area. Both encourage and aid in the expansion of local industry and the relocation of new industry. MLGW cares about the economic growth and development of our community as we strive to improve the quality of life for all of our customers.

APPENDIX

Substation Transformer

Electric users su dh mo t in o e tha the tp ical US.u ser in in

A typical MLGW residential electric customer spent about 12 cents per kilowatt hour (kWh), whereas a typical U.S. user spent 17 cents per kilowatt hour in 2024. Figure 1 compares MLGW residential prices to the U.S. average over the past 22 years. Using an annual average of 13,692 kWh, a MLGW residential customer saved \$589 more than a typical U.S. residential customer from a sampling of 500 electric utilities.
